

CD drive mechanism of PLAYER I & PLAYER II, DRIVE II

Both cd mechanisms are made by Stream Unlimited in Austria.

The engineers of Stream Unlimited are the former technicians of Philips Austria.

They stayed in Austria, when Philips closed the company in Austria.

- Mechanism of PLAYER I: CD Pro-80
- Mechanism of PLAYER II and DRIVE II: CD Pro-8, the succeeding mechanism of the Philips CD Pro-2

CD Pro-80

CD Pro-8
